

**Proposed Agenda
EPA-CPG Meeting
COPC Mapping
March 11, 2015**

Introductions/Opening Remarks

CPG Presentation

- Objectives of the mapping
- Predictability of sediment contaminant concentrations
- Partitioning the river to account for geomorphological influences on concentrations
- Approach to LPR contaminant mapping

EPA Presentation

- Review of interpolation methods – CPG approach and other potential approaches
- Evaluation and consideration of the effects of uncertainty

Discussion

- Action Items
